Contractor Growth Package

FOR SUBCONTRACTORS & SMALL CONTRACTORS

Get on more GC bid lists. Look busy when they check.

We register your company on the subcontractor lists of general contractors in your area, follow up until you're confirmed, and keep your online presence active, so when a GC looks you up, you look established.

Built for renovation, roofing, concrete, drywall, landscaping, tree work and similar trades who want more commercial work but have no time for paperwork or posting, because you're on site all day and estimating at night.

WHAT YOU GET

1

A portfolio GCs can review in 2 minutes

Capability statement, 5–8 project sheets with photos and scope, and a standard intro email for GCs.

2

Registered on local GC vendor lists

We find GCs that hire your trade, fill out their subcontractor forms, attach your portfolio and follow up until confirmed.

3

Social media that shows your work

Regular posts from your own project photos on Facebook, Instagram and LinkedIn, so your pages look active.

4

A Google profile that matches everywhere

Optimized Google Business Profile, fixed names, phones and addresses across listings, and review requests.

HOW IT WORKS

01

Week 1: onboarding

You send your documents, photos and logins once. We take it from there.

02

Month 1: setup

Portfolio built and approved, Google cleaned up, a list of 40–60 GCs in your area, first registrations sent.

03

Every month

New registrations, follow-ups, weekly posts, and a report showing every registration and bid invitation.
